## Introduction

# Introduction

This manual contains approved standard graphic elements of the Union for the Mediterranean visual identity system. Please use and adhere to these guidelines, which are fundamental yet flexible enough to allow for individual expression.

## *What is the UfM? \**

The Union for the Mediterranean: an action-driven organisation with a common ambition.

The Union for the Mediterranean (UfM) is a unique intergovernmental Euro-Mediterranean organisation which brings together all 28 countries of the European Union and 15 countries of the Southern and Eastern Mediterranean. The UfM provides a forum to enhance regional cooperation and dialogue, as well as the implementation of concrete projects and initiatives with tangible impact on the citizens of its Member States, with an emphasis on young people, in order to address the three strategic objectives of the region: stability, human development and integration.

The Secretariat of the Union for the Mediterranean is the platform to operationalise decisions taken by the Member States, implementing strategic regional projects through a specific methodology based on dynamic multi-partner networks and the exchange of best practices and innovative tools: more than 45 regional projects labelled by the Member States worth over €5 billion, mainly in the areas of inclusive growth, youth employability, women empowerment, student mobility, sustainable urban development and climate action.

# Logos and usage

The logo of the Union for the Mediterranean is formed by two main parts: the isotype, which represents the Mediterranean Sea with a ship reflected in the sea; for that reason, the white/transparent color will always be on top, while the blue/dark color will stay at the bottom.

The second part of the logo displays the name of the institution in the three official languages: English, French and Arabic.

## Use of the UfM logo by Project promoters

The logo is used to identify UfM-labelled projects and to signal the fact that a specific project adheres to a set of sound financial and management principles and common objectives and is therefore supported by all of the 43 Member countries of the Union for the Mediterranean. It is a seal of quality that certifies the project's regional focus and its capacity to create a series of best practices that could be potentially emulated by other regional, national and/or local actors. UfM-labelled project promoters shall display the UfM logo on different communication channels and materials used in the framework of the project. These include but are not limited to:

### **Project website:**

The UfM logo shall be displayed on the labelled project's own website, next to the project's name, or alongside the other institutional support logos.

### **Promotional materials:**

The UfM logo shall be displayed on flyers, project factsheets and other promotional materials elaborated by the promoter on the project.

### **Press Releases:**

The UfM logo shall be displayed on any press releases launched by the promoter. If related to a UfM-labelled project, a joint press release may be considered. Please contact the UfM Communication team for more information in this regard.

### **Banners, roll-ups and posters:**

The UfM logo shall be displayed on any support materials used in events, such as banners, roll-ups and posters. If used, the logo should be big enough to be visible, depending on the actual size of the surface it is printed on.

NB: Please note that the UfM logo may not be used by the promoter in channels and materials with no direct connection with a UfM-labelled project, or to promote projects with no official UfM endorsement.

# Graphic resources

For graphic content from the UfM, used by the institution or stakeholders, the following disclaimer must be included:

## LEGAL NOTICE

© Union for the Mediterranean, [year] (the copyright is only of the UfM because they have the contractual relationship)  
Reproduction is authorised provided the source is acknowledged.

## *Images and pictures*

The images and pictures have to comply with a few parameters.

The main parameter lies in the quality of the image: it shall be in high resolution, be clear enough and in focus. The picture should be correctly illuminated and with a proper white balance.

Once the image complies with the previous parameters, it has to respond to a series of parameters which will depend on the type of photography.

Pictures that include people shall be inclusive and non-discriminatory. Ideally, the pictures will reflect as much as possible the multicultural component of the Mediterranean.

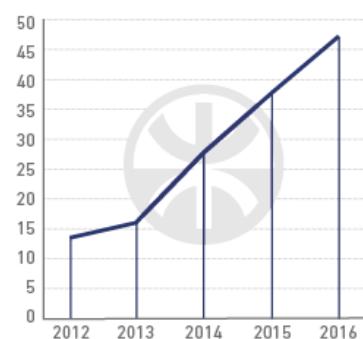

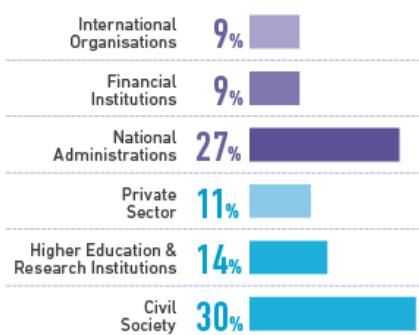

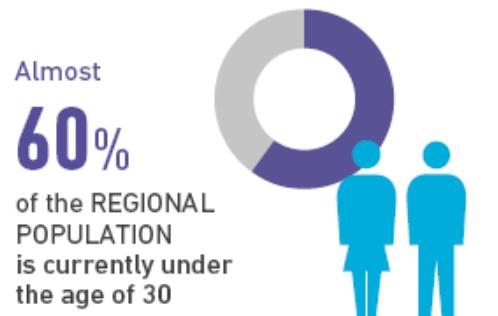

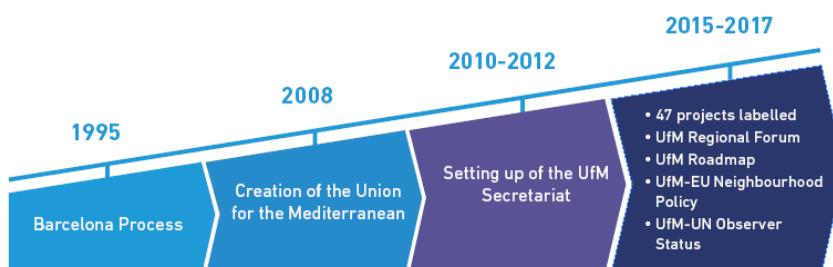

When it comes to pictures displaying only landscapes/cities, it is important that those always be taken from a UfM Member State.

## Graphics, charts and grids

For graphs and charts, the design should be clear and easy to understand, using solid colors without patterns or gradients. Avoid using strokes on graphs and charts as much as possible, keeping its use solely for text frames and text outlines.

The following examples show graphics, charts and grids which comply with the previous parameters.

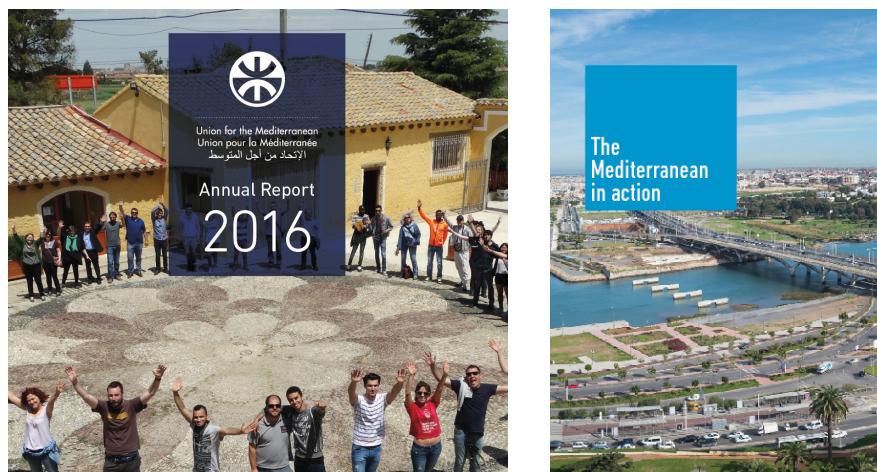

## Backgrounds and boxes

The backgrounds and boxes used will have different formats depending on the situation. They shall display solid colors, without patterns or gradients, while always using the official UfM colors (main palette or approved gradients). Boxes will be squares and rectangles, with no rounded corners.

In the example shown below, the boxes are used over pictures. In this case, all the boxes/backgrounds will have a 75% to 65% opacity, except for the cases in which the text cannot properly be read. In those cases, the box should have a 100% opacity.

In the second example, the boxes used are not coupled with a picture. In this case, the boxes/backgrounds shall always have a 100%, while using a solid color.

December 2016 saw the launch of a new regional dialogue process related to higher education internationalisation and academic mobility in the **Euro-Mediterranean area** involving relevant experts from UfM Member States, the European Commission and stakeholders. The participants of the first meeting agreed on **adopting** a comprehensive approach on **mobility issues** and a clear methodological framework which will be developed under the auspices of the UfM Secretariat over the coming months. The meeting provided an opportunity to debate the impact and sustainability of university partnerships as well as the issues of governance and capacity-building, **migrant and refugee students credit recognition**, visas, brain drain and youth employability.

In order to ensure a proper readability, please note that dark backgrounds should always display light text, while light backgrounds should display black or grey text.
